EDUCATION

Self-directed (2013–present): growth marketing, CRO, direct-response copywriting, lifecycle/martech, and AI-native build workflows — through intensive programs and shipped-project practice.

SUMMARY

Direct-response copywriter and creative strategist who writes the long-form assets that move cold traffic: advertorials, sales pages, VSscripts, and lifecycle email. I built a studio that has produced 30+ bespoke advertorials, each engineered around a brand's specific pain points using structured research and avatar-language, then A/B-minded from the first draft. I pair the copy with the funnel and the data, because I have run the P&L behind the words — I know a headline's job is a number, not a vibe.
