EDUCATION
Self-directed (2013–present): growth marketing, CRO, direct-response copywriting, lifecycle/martech, and AI-native build workflows — through intensive programs and shipped-project practice.

SUMMARY

Full-funnel growth marketer who has personally run Meta acquisition, built the landing pages and offers behind it, and measured the whole thing on CAC / LTV. I led a creative-automation system producing thousands of targeted ad variations that supported an \$80K launch in under two months at 5x+ ROAS efficiency, and I ship the funnel and experiments myself. Rare combination: I understand the customer deeply enough to write the direct-response copy, and I can build and test the change the same day.
